

LEARNING  
JOURNEYS

*For anyone eager to explore the world, engage in a new passion, learn a new craft, or delve deeper into an interest.*

**Learning Journeys** wide array of experiences across the globe invites the curious to join a likeminded community of learners and responsible explorers. Dr. Carol Dimopoulos and the Learning Journeys team of global educators have designed exclusive and immersive programs that provide deeper learning in diverse areas of interest, while delivering exceptional opportunities to explore the world.

Among the many programs we offer are hands-on experiences in photography, dance, art, wildlife study, languages, music, gardening, gastronomy, astronomy, wellness, rural culture immersion, history, and much more. Renowned master teachers, local experts and artisans provide immersive learning and cultural exploration. At the end of each program, participants receive a Certification of Learning that officially documents the skills learned and an opportunity for lifelong mentorship.

Travelers will return home refreshed, more knowledgeable, culturally aware and fulfilled by their experiences. Explore the Learning Journeys traveling classroom by visiting [www.learningjourneys.com](http://www.learningjourneys.com).

## LOCAL IMMERSION

---

**Learning Journeys** works with local communities to make our programs mutually beneficial experiences for everyone. We cultivate a learning environment that focuses on a collaboration of likeminded interests with educators, experts, and artisans within destinations the world over. Participants will have an in-depth immersion into the local culture and community, and local educators and artisans, the bedrock of social economies, are hired to share their expertise.

Opportunities include everything from face-to-face Polar Bear Photography in Artic Canada, Gorilla Conservation in Rwanda and Uganda, Living Like A Monk for a Month in the Himalayas, The Art of Beekeeping in Poland, Italian Language Immersion and Culinary Arts in Sorrento, Discovering The Secrets of Scent and Perfume Making in Malta, Learning to Dance Like a Bollywood Star in India or Belly Dancing in Turkey.

# THE WORLD IS YOUR CLASSROOM

**Learning Journeys** programs are ideal for couples, solo travelers, groups of friends, colleagues, students, and families who are seeking to combine continuing education with authentic immersions in local cultures, cuisine, people, and sights. Private and semi-private departures are guaranteed, and small group experiences are just that with no more than 16 participants on any departure. All provide enticing and engaging ways to learn about new cultures, enjoy new experiences, and spend valuable quality time together.

The communities Learning Journeys touches are global. Enriching programs can be found throughout North America, Latin and South America, Europe, India, Asia, and Australia. From beginner to professional certification, there are three programs for desired learning levels - Explore an Interest, Pursue a Passion, or Change My Life - in destinations the world over.

## THE LEARNING JOURNEYS DIFFERENCE

Private Programs  
with Guaranteed  
Departure Dates

Small Groups of no more  
than 16 participants

Certificate of Learning  
upon completion of  
each program
